

# Text Message Notifications When Medications Are Ready for Pick Up

## Page 1: Patient Instructions

To better serve you, the pharmacy offers an automatic text message service to notify you when your medications are ready to be picked up.

If you are interested in receiving text message notifications, please fill out and sign the bottom half.

### Important Notes:

- You may receive one or more text messages, depending how your medication order was received by our pharmacy.
- Text messages will be sent once your prescription is ready for pick up.
- Medications will be available for pick up for 10 business days. We are unable to notify when these prescriptions are returned to the shelf if you did not pick them up.

### By signing this form:

- I agree to receive text notifications on my cell phone when my medications are ready.
- I understand that text messaging rates may apply, as defined by my cell phone provider.
- I will notify pharmacy staff when I no longer wish to receive these notifications.

-----  
Please detach & give patient top half. Scan and file bottom half.
